ABSTRACT

This is the 20th year of statewide student testing under the Arizona Student Achievement Program. To fulfill the requirements of the Arizona Revised Statutes, a nationally standardized norm-referenced achievement test in the subjects of reading, language arts, and mathematics was adopted and implemented in Arizona schools. For the 1999-2000 school year, students in grades 2 through 11 were tested using the Stanford Achievement Test, Ninth Edition (Stanford9). This test was administered statewide to 619,280 Arizona students in grades 2-11 during the Spring of 2000. Three subtests in the target academic content areas were administered to all students. This "State Report Appendix" provides school, district, county, and state level scores representing typical student performance on the 1999-2000 administration of the Stanford 9. Sections A, B, and C of the report provide separate scores, one for each subject area. The three scores cannot be averaged to provide one overall score for a school, school district, county, or the state. The scores are called "individual percentile rank scores," and they indicate the estimated percentage of students nationally scoring equal to or lower than the average performance indicated for a school, district, county, or state. One lengthy table is provided for each of the subject areas. (SLD)

Introduction

This is the twentieth year of statewide student testing under the Arizona Student Achievement Program. To fulfill the requirements of the Arizona Revised Statutes Section 5-741 through 744, a nationally standardized, norm-reference achievement test in the subjects of reading, language and mathematics must be adopted and implemented for use in Arizona schools.

For the 1999-2000 school year, students in grades 2 through 11 were tested using the *Stanford Achievement Test*, Ninth Edition (*Stanford9*). This test was administered statewide to 619,280 Arizona students in grades 2-11 during the spring of 2000. Three subtests in the academic content areas of reading, language and mathematics were administered to all students.

This *State Report Appendix* provides school, district, county and state level scores representing typical student performance on the 1999-2000 administration of the Stanford 9. Sections A, B, and C provide separate scores, one for each subject tested. The three scores cannot be averaged together to produce one overall score for a school, district, county or the state. The scores are called *individual percentile rank scores* and indicate the estimated percentage of students nationally scoring equal to or lower than the average performance indicated for a school, district, county or the state.

I. DOCUMENT IDENTIFICATION:

Title: <i>Arizona Department of Education Stanford Achievement Test State Report Ninth Edition</i>	
Author(s):	
Corporate Source: Arizona Department of Education	Publication Date: <i>Spring 2000</i>

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic media, and sold through the ERIC Document Reproduction Service (EDRS). Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following three options and sign at the bottom of the page.

The sample sticker shown below will be affixed to all Level 1 documents

The sample sticker shown below will be affixed to all Level 2A documents
